Summary

Computer Science student seeking an internship to gain hands-on industry experience. Strong foundation in web development, databases, and problem-solving. Quick learner, adaptable in team environments, and eager to contribute to innovative projects.

Education

Diploma in Computer science

Tshwane University of Technology – Emalahleni Campus, Witbank, Mpumalanga

Relevant modules

1.Programming fundamentals(java)
2.Object-Oriented-Programming & Advanced OOP
3.Web Development(HTML,CSS,JavaScript)
4.Database principles & Database Programming
5.Internet Programming
6.Mobile Computing
7.Software engineering fundamentals
8.Software Project

Matriculation

Phambili Secondary School – Twefontein E – Mpumalanga

Relevant subjects

1.Mathematics
2.Physical Science
3.Life science
4.English First Additional Language
5.Isindebele Home Language
6.Tourism
7.Life Orientation

Skills

- Problem-Solving & Team Collaboration
- Web Development (HTML, JSP/Servlets)
- Database Management (SQL)
- Problem solving and team collaboration

Projects

- Tutor Management System: Web-based platform enabling tutors and students to register for sessions; included authentication, scheduling, and database integration.
- Currency Converter Application: Desktop app converting between multiple currencies using real-time exchange rates; designed with a simple, userfriendly interface.
- Calculator Project: Developed a functional calculator application supporting basic arithmetic operations; focused on clean UI and efficient logic implementation.
- Web Application with Servlets/JSP: Designed a simple account management system; handled server-side logic and error management (e.g., HTTP 500 troubleshooting).

Programming Languages

- Java
- SQL
- JavaScript

- Kotlin
- HTML/CSS
- React

Frameworks

- Object-Oriented Programmin(OOP)
- JSP/Servlets (Java EE)
- Unit Testing

Developer Tools / Testing

- Git & GitHub for version control
- Android Studio
- IntelliJ IDEA
- Visual studio code

Databases

- MySQL
- Aparche derby
- Oracle Database
